

The Children's
Christmas Party
of Jacksonville

What Are People Saying About The Children's Christmas Party of Jacksonville?

"Without this special event I would not have been able to give my kids anything for Christmas because I don't have a job right now. It's hard to know that your kids know about Christmas and you don't have anything to give them. I know its not all about presents but they don't understand that yet. I am thankful for this event and all the help it has given me and my children."

– A Mom

"This is absolutely one of my favorite events to volunteer for. My team and I wish we had a video camera every single year to capture the love and appreciation on these families' faces. I think it makes you feel like a kid again. Our CSX employees really thank you and The Honorable Mayor Peyton for allowing us to give back to our community."

– CSX Employee Volunteer

"I am a divorced mother of two who due to a recent breakup am left struggling to survive. I am currently living with another family and trying to gather the money to get a place of our own again so Christmas just seems overwhelming. I have always heard of people getting help from you but fortunately until now I have never needed it."

– Mother of Two Children ages 10 & 11

"Thank you for letting me be a part of what you do. I look forward to being involved next year. I think it is awesome what you do. Keep up the good work."

– Batman Character

"I brought my neighbor's two little boys to the party and they were tickled pink with the toys they got. Their father left the family a few months back and I can say for a fact those boys would not have received anything for Christmas."

– A Concerned Neighbor

"I told a friend of mine that it was the best volunteering that I have done to date. It was very rewarding."

– Haskell Company Employee Volunteer
